2016-2020: bachelor degree at University of Pavia
Degree in Computer Engineering.

Thesis: "Photogrammetry and Art: San Luca's Cherubs"

PERSONAL INTERESTS

My life long passion for cars and motorsports and my IT background have led me to pursue a career that could combine both.

In my free time I enjoy 3D modeling and printing, and I still like to indulge in some digital graphic design, which I have done professionally for many years.
